Subject: MY NEW LEXUS

The CLOSEST car to this ANYONE has in stock is **$57,000** so **SUBSTANTIALLY** different…This one is $63K. The *GS Hybrid* model is **no longer available for 2016**…it was VERY limited production and what **DID** come in, got sold out over 4 months ago.

I configured this with everything you've been asking about (*colors are obviously interchangeable*). The one I can bring to drive has SOME of these features, but **not everything**…no "heads-up" display or Mark Levinson Audio.

Please let me know what you think…..

CHECK OUT THE LEXUS I JUST CONFIGURED:
